Iron Sharpens Iron: Co-Teaching in a Teacher Education Program

Abstract

Recently the Education department at Dordt College revamped its program. We were implementing co-teaching during our year-long student teaching experience for seniors, but we felt it would be more effective if students had experience with co-teaching before being one of the main participants. As changes were discussed, we were challenged to look for opportunities to implement co-teaching so students would benefit from it as a student as well as seeing it modeled and explained. As a result of this, Ed Starkenburg and Gwen Marra have been co-teaching an undergraduate Children's and Adolescent Literature course. They will share their experiences of implementing the various strategies and data they have collected from students who have taken the course. Planning, instruction, and assessment ideas will be shared.

The Context

Where have we been?

Where are we now?

Where do we hope to go?

In the beginning...

- Traditional student teaching model
- 15 weeks
- 2 sessions
- Gradual increase of responsibility
- 1-2 weeks full responsibility
- Gradual decrease of responsibility

Professional Development School Model

- Yearlong experience
-
- Co-teaching model
-
- Intentional matches
-
- Training provided prior to and ongoing

Was the PDS with its co-teaching model a better way to prepare preservice teachers?

Mentor and Intern Reflections on Co-teaching

Mentor: *“ I definitely saw growth in my students’ learning. Especially when we used parallel teaching or stations, we could address students’ needs more specifically. It really worked!”*

Intern: *“ We worked together to try and figure out what co-teach strategies worked best for us, for our students, and for the teaching structures set up in the class. The way the class was structured, sometimes made it difficult or impractical to try out all of the co-teaching methods. I feel like she engaged in effective co-teaching with me, and was very willing to try things I suggested or asked her to do in regards to co-teaching.”*

Site and College Coordinator Reflections on Co-teaching

Site Coordinator: *“The best part is that the classroom teacher has grown a lot too.”*

“Why would we NOT do this? Its a win-win (for P-12 schools and for interns)”

College Coordinators: *“Made me a better professor – made my teaching fresh”*

“When I observed co-teaching, I saw that it was really effective at meeting the needs of students.”

Effective Partnership due to TRUST

EDUC 155 with Co-Teaching

- Intentional Weekly Planning
- Incorporating Co-teaching Strategies (Share with Students)
- Shared Responsibility for Assessment

Co-Teaching Strategies

- One Teach, One Observe
- One Teach, One Assist
- Station Teaching
- Parallel Teaching
- Supplemental Teaching
- Alternative / Differentiated Teaching
- Team Teaching

What do students say?

“I learned how co-teaching is not just about two teachers teaching completely different lessons, but about two teachers working together to strengthen the lesson all together.”

“I appreciated how co-teaching emphasized both of the professor’s strengths. They complemented each other well. It is much easier to spot co-teaching strategies now that I have seen them in action.”
